

Dr. Michael Szarek Cosmetic Dentistry

Introducing *The TotalSkin Solution* now available here at **The Beauty Lab Med Spa!**

What is The TotalSkin Solution?

The TotalSkin Solution is comprised of two best-in-class devices, the Lutronic™ Genius,™ which delivers thermal energy deep into tissue for long-term skin remodeling, and the Lutronic Ultra,™ which rejuvenates the upper layers of the skin. Used together, they provide a unique anti-aging solution for immediate, long-term results. The TotalSkin Solution will address the signs of aging skin including:

- Freckles
- Sun spots/ sun damage
- Active acne
- Mild acne scars
- Melasma
- Pigmented lesions
- Actinic keratosis
- Fine lines
- Dull skin
- Rosacea
- Skin Laxity
- Jowls
- Neck Lines
- Stretch marks

How does the treatment work?

Utilizing radiofrequency and laser energy, The TotalSkin Solution delivers the precise amount of energy throughout the skin. The energy heats the skin, resulting in long-term remodeling and rejuvenation. By treating all layers of the skin in one treatment, the synergistic effect is addressing all the signs of aging that naturally occur.

How does the treatment feel and how long does it take?

You will feel some heat and pressure during the treatment, but we will work with you prior to the procedure to maximize your comfort. Most treatments will take anywhere from 30-60 minutes, depending on the area being treated.

How many treatments will I need and how long before I see results?

The average treatment regimen consists of three treatments, with 4-6 weeks in-between each treatment, but we will work with you to determine the number of treatments needed to achieve the results you are looking for. You will see visible improvement in as little as a few days after being treated, with optimal results over the next 3-6 months as your body continues to build collagen and elastin.

Is there any downtime?

There is no downtime, but you may experience some initial redness and swelling, which should substantially subside within 24-48 hours, at which time you can safely wear makeup and resume normal activities.
